Author index*

Volume 18 (1992)

Abou-Elseoud, A.A., *see* Mahmoud, M.S., (1) 55–66

Aderoba, A., A model for facility selection and siting in pre-investment decision analysis, (5) 323–332

Adiga, S., R.G. Pétrakian and P.M. Shabe, A knowledge-based support system for prototyping simulations with a reusable software library, (3) 185–194

Al-Fuhaid, A.S., *see* Bahnasawi, A.A., (3) 223

Andes Jr., R.C. and W.B. Rouse, Specification of adaptive aiding systems, (3) 195–208

Bahnasawi, A.A., A.S. Al-Fuhaid and M.S. Mahmoud, Response to comments on 'Stabilization of interconnected uncertain discrete systems via decentralized control', (3) 223

Barney, S., Biomedical visualization and hypertext. Creating integrated, 'intelligent' systems for clinical medicine, (2) 135–142

Basaglia, G., *see* Guida, M., (5) 347–362

Bennavail, J.-C., Pricing decision-making in retail banking: The bank price approach and system, (4) 225–240

Bennavail, J.-C., Z. Chen and M.G. Singh, Judgemental calibration of multivariable constant elasticity models: Scenario generation, (6) 415–426

Bennavail, J.-C., *see* Singh, M.G., (6) 427–442

Benson, C.R., T. Govindaraj, C.M. Mitchell and S.M. Krosner, Effectiveness of direct manipulation interaction in the supervisory control of flexible manufacturing systems, (1) 33–54

Blum, B.I., On the development of hardware and software, (6) 375–394

Buur, T., *see* Timpka, T., (2) 81–88

Chen, Z., *see* Bennavail, J.-C., (6) 415–426

Chung, T.Y. and S.H. Kim, An interactive approach for resolving conflicts between supplier and stockist in production planning, (3) 209–220

Cody, W.J., *see* Rouse, W.B., (5) 301–308

Correia, A.D.P., *see* Monteiro, P.P., (4) 241–264

Elsayed, H.M., *see* Mahmoud, M.S., (1) 55–66

Feng, S., L.D. Xu, H.Z. Zhou and L.X. Li, Dynamic simulation of demographic- economic systems in developing countries, (5) 363–374

Frey, P.R., *see* Rouse, W.B., (5) 301–308

Ghaoui, C., *see* Wang, W., (2) 101–114

Govindaraj, T., *see* Benson, C.R., (1) 33–54

Graves III, W. and J.M. Nyce, Normative models and situated practice in medicine. Towards more adequate system design and development, (2) 143–150

Grenier, M., *see* Mili, H., (2) 115–134

Guida, M., P. Marchesi and G. Basaglia, Knowledge-based decision support systems for manufacturing decision-making. The Pirelli experience, (5) 347–362

Guthrie, S. and S. Manivannan, A knowledge-based assignment methodology for personal identification in mass disaster, (5) 309–322

Haimes, Y.Y., *see* Romei, S.F., (4) 265–282

Harding, W.T. and R.T. Redmond, Building an expert system from text: A case study, (6) 395–404

Hedblom, P., *see* Timpka, T., (2) 81–88

Heragu, S.S., A heuristic algorithm for identifying machine cells, (3) 171–184

Hindi, K.S., *see* Ploszajski, G., (6) 405–414

Kim, S.H., *see* Chung, T.Y., (3) 209–220

Kotob, S., *see* Mahmoud, M.S., (1) 55–66

Krosner, S.M., *see* Benson, C.R., (1) 33–54

Li, D., *see* Romei, S.F., (4) 265–282

Li, L.X., *see* Feng, S., (5) 363–374

Liang, Y., *see* Palmer, J.D., (4) 283–300

Lui, Q.S. and K. Ohno, Multiobjective undiscounted Markov renewal program and its application to a tool replacement problem in an FMS, (1) 67–78

Mahmoud, M.S., S. Kotob, A.A. Abou-Elseoud, and H.M. Elsayed, A learning rule-based control system, (1) 55–66

Mahmoud, M.S., *see* Bahnasawi, A.A., (3) 223

Manivannan, S., *see* Guthrie, S., (5) 309–322

Marchesi, P., *see* Guida, M., (5) 347–362

Mars, N.J.I., *see* Wognum, P.M., (2) 89–100

Mili, H. and M. Grenier, Managing documentation for software reuse, (2) 115–134

Mitchell, C.M., *see* Benson, C.R., (1) 33–54

Monteiro, P.P. and A.D.P. Correia, Short-term production scheduling: A new and more efficient algorithm and its application to the pulp and paper industry, (4) 241–264

Naidu, E.B. and N. Viswanadham, An expert system for real-time scheduling in flexible manufacturing systems, (3) 151–170

Nwankpa, C.O. and S.M. Shahidehpour, Decisions for the prevention of a voltage collapse in electric power systems, (1) 1–32

Nyce, J.M., *see* Rada, R., (2) 79–80

Nyce, J.M., *see* Graves III, W., (2) 143–150

Ohno, K., *see* Lui, Q.-S., (1) 67–78

Palmer, J.D. and Y. Liang, Indexing and clustering of software requirements specifications, (4) 283–300

* The issue number is given in parentheses before page numbers.
